Delivery (UK Mainland Only)

We endeavour to deliver all orders within 48 hours, with the majority being despatched on the same day that purchase orders are received.

Delivery Dates for made-to-measure or specially requested products will be advised on receipt of an official purchase order. Please note, made to measure orders must be received in writing by email or post and once acknowledged cannot be cancelled and are subject to additional charges.

Promedics reserve the right to make partial deliveries unless otherwise instructed. All orders are subject to a standard post and packaging charge of only £5.95. Saturday delivery and timed delivery incur additional charges.

Payment

All prices are exclusive of VAT. If you have an account, payment should be made within 30 days of the date of invoice. Payment can be made by credit card, most major cards are accepted. Payment can also be made by Switch or Delta. Cheques should be made payable to 'Promedics Orthopaedics Ltd'

Returns Policy

All goods for return must have authorisation. Please call or email our customer service department for a returns note: all returns must be notified within 28 days of receipt of goods. A restocking fee may be applied. All returned goods must be as new and in original packaging.

Welcome

to the Promedics Orthopaedics Product Catalogue

Promedics are delighted to announce we are now an Aspen Medical Products company and the exclusive provider of Aspen Products in the U.K. We are very proud to present to you our new catalogue which includes the Aspen product range and is packed with new and innovative products. The majority have been designed and manufactured by us in our 40,000 square foot facility in the UK.

Promedics remain absolutely committed to using British employees to manufacture our products. We employ over 150 people in the UK to ensure we continue to deliver to you, high quality products that have been designed specifically for the UK medical market and your patients needs.

The vast majority of our products are despatched on the same day that we receive your order. Our commitment to manufacturing our goods in the UK means that we continue to offer unrivalled levels of service to our customers in the UK and we are consistently a Top 5 supplier according to NHS Supply Chains own statistics.

Your business is very important to us, and for over 30 years we have remained committed to offering exceptional service, quality and educational support to healthcare professionals. Again this year Promedics will run a full training and education workshop programme for over 50 events throughout the UK on a wide range of our orthopaedic, orthotic and therapy products.

If you would like any further information or help, then please get in touch with me, our Customer Service Team, your local Commercial Manager or contact us through our website at www.promedics.co.uk

Yours sincerely
David Baxendale
CEO

Manufacturing, Partnership & Development

Promedics constantly listen to the needs of our customers, not only in the UK but also internationally where we sell to over 40 countries. For over 30 years we have invested in British manufacturing, design and production and our UK facility continues to grow and be a leader in European Orthotics and Orthopaedics.

Manufacturing in the UK not only gives us the ability to react quickly to the changing demands and needs of our customers, but it also allows us to control the raw materials and final quality of our products to ensure that we adhere to the highest possible standards.

Our facility is fully accredited to the Medical Device Directive ISO 13485:2016 and is fully audited by British Standards Institute.

We are committed to Research & Development in the UK. Our in-house team work independently and in-association with our partners and the NHS, to constantly strive to integrate the latest textiles, designs and benefits to ensure our products are designed specifically to the needs of our customers in each country we work in. Everyone is different and it is our job to meet your needs.

Promedics are very proud to represent on an exclusive basis, the world class companies of Aspen, North Coast Medical and Orfit.

Customer Service

Promedics operate throughout the UK and are able to supply every hospital, department and Trust in the UK on a next day basis if required. We are a key supplier to NHS Supply Chains in England, Scotland, Northern Ireland and Wales. So whether you prefer to order direct or via contract, we are there to help.

We have a full dedicated Customer Service department to ensure we provide you with outstanding, first class service every time. Whatever your needs our team are available to help, answer your call, and to ensure you get the product you are looking for. We have over 15,000 product lines in stock and our team are fully trained and waiting to help you.

We also have a full national team of local Commercial Managers throughout the UK. To get in touch with yours please contact our Customer Service Team.

Export

Promedics export to over 40 countries and we can offer you a full design and manufacture service to give you a range of products that work for your country.

We recognise that each country has its own unique demands and for many years have been a leading supplier throughout USA, Germany, Scandinavia and Western Europe.

We would be happy to work with you in Great Britain, to design and manufacture the Orthopaedic range that's right for you.

Lycrafleece™

Lycrafleece™ is a Lycra® Spandex™ 3 ply laminate, designed for the ultimate in patient comfort. The unique construction makes this material perfect for orthopaedic bracing. It is our most comfortable and durable material which makes this range of products the elite in medical bracing.

Lycrafleece™ has unique properties which keep the patient warm when it's cold and cool when it's warm for optimum comfort without sacrificing performance.

Lycra® Spandex™ gives the material unique stretch and recovery properties whilst a polyester lining material wicks moisture away from the skin to allow greater patient compliance.

Lycrafleece Thumb Spica

Product Code: BLTS

Supports the wrist and thumb, leaving the palm completely free. An 11cm removable flexible stay restricts movement at the CMC and MCP joints, leaving the IP free. The angled hook/loop attachment at the wrist and thumb ensures a perfect fit. Use for patients with Rheumatoid and Osteoarthritis.

• Breathable • Comfortable • Skin Friendly

AirX™
Let your body breathe

Moisture-transporting material

The unique AirX™ fabric has the ability to transport moisture efficiently away from the body. The layering of fibre structures promotes a moisture wicking process, which results in a dry comfortable feeling to the surface of the skin so that body always feels fresh and dry. AirX™ gives the body optimal freedom to breathe – reduces the risk of skin maceration which results in improved patient compliance.

A pleasant surprise

It is hard not to be impressed. AirX™ is made of a soft, lightweight material that perfectly follows the contours of the body. This means that AirX™ adapts itself perfectly to the body so that it feels extremely comfortable to wear – even for long periods at a time – a feature, which is often a problem with orthopaedic and sport medical braces and supports. In this way, AirX™ is a comfortable material that helps to to increased patient compliance without you even knowing!

Air X One Piece Wrist

Product Code: AWB

A one piece wrist brace utilising the excellent properties of AirX to provide a comfortable well fitting brace. The textile is very durable and, together with the reinforced bar casing, makes this brace an excellent choice for patients using braces long-term.

* Insert product code

Pollo Form Spica – Standard

Product Code: SPF

The unique two-way stretch material gives the Pollo Form excellent properties for supporting the wrist and thumb. Outer material is durable and supports an inner pocket with a pre-cut low temperature thermoplastic insert. The insert is activated by pouring warm water into the pocket. After removing the water the brace is then fitted to the patient whilst forming the insert to hold the thumb in the required position.

The insert can be reactivated to allow serial adjustments or removed later in the treatment programme. The Long version gives greater control around the wrist.

Procool

Procool is a range of lightweight and breathable splints producing excellent compression and support for a wide range of conditions and injuries.

Made with tiny perforations in the Neoprene for comfortable wear and a terry cloth lining that feels good against the skin.

Procool offers you just the fit you want – excellent stability without excessive bulk.

Procool Thumb Restriction Splint

Product Code: PTRS (Black) PTRSB (Beige)

Whilst providing full finger function, this very low profile wrap around support provides adjustable support for the thumb CMC joint in the treatment of osteoarthritis and medial subluxation. The shaped strap wraps around the thumb CMC joint and the first metacarpal for targeted CMC joint support.

An extensive size range covers paediatric to adult sizes and plus sizes are a full size bigger in thumb circumference to fit oedematous thumb conditions. Function and fit without bulk.

This brace can be trimmed if required. Available in black and beige.

Indications Include:
- CMC Joint Arthritis
- CMC Instability
- Tendinitis, Pain associated with repetitive motion.

Procool D-ring Wrist Splint

Product Code: PDR (Standard) PDRF (Firm)

Low profile support with circumferential slip-on design and D-Ring fastening to allow easier one handed application. Aluminium palmar bar can be removed for further adjustment. Dorsal stockinette lining facilitates application and cushions strap closures. Design of the Standard and Firm braces allow full finger and thumb function whilst limiting wrist flexion.

The Firm splint has the addition of adjustable dorsal stays to reduce unwanted flexion and extension and improve overall immobilisation of acute soft tissue injuries.

This unique material has high compression features and provides excellent support to the injured wrist and allows full function of the fingers and thumb at the same time as protecting the wrist.

Black Seal SX Wrist Brace

Product Code: SSX

A four way stretch high compression Lycra is combined with a fully breathable microfleece to provide a material that offers great wrist support and compression. Lycrafleece is a comfortable and durable material and has unique properties that keep the patient's wrist and hand at the optimal temperature. The inner microfleece also helps wick away moisture from the skin to allow greater patient comfort.

Use CSX size chart above

Air SX Wrist Brace

Product Code: ASX

Using a 3D four way stretch fabric the Air brace is designed to offer compression, support and comfort. The Air brace offers excellent breathability and temperature control due to the open 3D construction of the textile. It is well suited to those patient's that prefer the security of a thicker more cushioned material.
The Air brace utilises the 3D material to offer a comfortable, well fitting brace with excellent breathability and overall temperature control.

Functional Resting Splint

Product Code: JRS (Padded) JRSE (Easy Liner)
JRS/TP (Thermoplastic Insert)

A functional resting splint that is available in three options:

- Full Padded Cover – Preformed plastic shell with fully removable padded cover and comfortable wide closure straps. This is excellent for patients using the splint on a longer term basis and the fully padded cover offers excellent comfort and compliance to those patients that are very sensitive.

- Easy Liner – Preformed plastic shell with a towel liner that is attached using hook/loop tabs. The shell is supplied with two towel lined padded liners that can be easily removed and replaced. Removable straps can be positioned as required. This option is more suited to conditions that benefit from easily changeable liners such as burns or trauma and is also a lower cost option

- Thermoplastic Insert – The full padded cover functional resting splint, described as above with a shaped piece of Orfit Eco 3.2mm non perforated thermoplastic insert, which is perfect for splinting to the patients needs and can be used as a serial splint also. Splint can be shaped and at a later date taken out of the cover back into a waterbath and reshaped to match changing condition.

Swan Neck

Boutonniere

Complete Kit

The economical Oval-8 Kit includes 42 splints in sizes 3-14, a carrying case, a ring gauge, a pen light and instructions. Packaged with most splints in the more commonly used mid-range sizes.

The Oval-8 Sizing Set includes one each of splint size 3-14 and the ring gauge.

Oval – 8 Finger Splint

Complete Kit Code: P1008-K

Sizing Set Code: P1008-S

Made of 1.6mm high-temperature polypropylene, Oval-8 splints can be adjusted with a heat gun for a small angle alteration. With a simple turn of the splint, each Oval-8 Finger Splint can be used to correct Swan Neck, Boutonniere and Mallet deformities, reduce Lateral Deviation and rest Trigger Finger.

Oval-8 splints feature a wide, flat band for comfortable pressure distribution and control. Available in 12 sizes, each splint fits both a full and half ring size. Sizes correspond to jeweller's ring sizes, though correlation may vary due to swelling or joint changes.

Aluminium Finger Splints

These padded aluminium finger splints help provide protection, support and promotes healing comfortably for injuries such as trauma, breaks, cuts, dislocations and many others.

Easy to apply, simply position the splint on the finger, bend into position, trim with heavy duty scissors if required and secure with microporous tape.

Product Code	NHSCC Code	Splint Size
100302P	GRZ1771	3/4 inches
100303P	GRZ1772	1/2 inches

Supplied in boxes of 12

Spinal Support

Spine Applications – Upper Spine

C1-C7

Decompressive procedures
Fracture management
Cervicogenic headache
Cervical disc syndrome
Postsurgical stabilization
Musculoskeletal pain
Trauma / whiplash
Sprains / strains
Radiculopathy

Cervicogenic headaches
Loss of range of motion
General neck pain
Muscle spasms
Radiculopathy
Thoracic pain
Neuropathy
Whiplash
Stiff neck

C1-T2

Postsurgical stabilization

How to Measure

1. Lower rib circumference = _____ cm
2. Hip circumference = _____ cm
3. T9 to Sacrococcygeal junction = _____ cm
4. Length from Symphysis Pubis to the Sternal Notch = _____ cm

A. Use waist circumference (average of 1 and 2 = _____ cm) to determine size of belt.

MP45 Plus
3-Point Hyperextension Brace

Product Code: TO1303N

Lightweight aluminium construction with unique spring-loaded 'floating' pelvic band. Thoracolumbar pad can be positioned horizontally or vertically. Unique 'Plus-lock' closure ensures controlled posterior loading.

Sternal component can be adjusted without bending, using serrated disc for angular adjustments in 5° settings.

Size	Code
Small	TO1303N/S
Medium	TO1303N/M
Large	TO1303N/L
Extra Large	TO1303N/XL

* Insert product code

Nhyco Cruciform
Hyperextension Orthosis

Product Code: TO410

A strong, lightweight aluminium alloy frame brace, weighing less than 700g. The replaceable EVA padding is non-toxic, waterproof and latex-free.

Features new 'Plus' safety lock closure system, easy for patient to apply/remove brace and ensures the same lumbar pressure each time.

Size	Code
Short	TO410CS
Regular	TO410CR
Long	TO410CL

* Insert product code

Chairback Brace

Product Code: CBB

A lightweight, spinal orthosis to maintain the spine in neutral and provide sacrolumbar stability. Made in heat-mouldable Kydex for a custom fit and lined with closed cell foam, this brace is lighter and thinner than conventional metal and leather braces, and ideal for elderly and osteoporotic patients who cannot tolerate heavier braces.

Size	Code	Hip Circumference	Brace Height (Centre back)
S	*/03	74 – 81 cm	29 cm
M	*/05	84 – 91 cm	32 cm
M-L	*/06	94 – 102 cm	33 cm
L	*/07	104 – 112 cm	34 cm

* Insert product code

Pro Tem Belt

Product Code: TB

Simple but effective, the high quality elastic and two flexible posterior stays make this our most popular belt.

The edges have quality Lycra binding and a back depth of 20cm cut away to 18cm at the front for increased comfort when sitting.

Size	Code	NHSCC Code	Waist Measurement
S	*/03	GRZ1252	66 – 74 cm
M	*/05	GRZ1253	76 – 84 cm
L	*/07	GRZ1254	86 – 94 cm
XL	*/08	GRZ1255	96 – 104 cm
XXL	*/09	GRZ1256	107 – 114 cm

* Insert product code

Proform Belt

Product Code: PFM

An elastic front with hook/loop closure and a cotton back section, with detachable comfort pad and two malleable steels which can be shaped to fit the spinal curve.

A webbing strap which can be positioned in the lumbar or sacral area, for extra compression on the spinal curve. Back depth is 28cm to support the thoracic area reducing to 20cm at the front for comfort.

Size	Code	Waist Measurement
S	*/83	58 – 66 cm
M	*/85	68 – 76 cm
L	*/87	79 – 86 cm
XL	*/88	89 – 97 cm
XXL	*/89	99 – 107 cm

* Insert product code

Contains Latex

Crossform Belt

Product Code: CFB

Two layers of bias-cut elastic give excellent shaping around the waist and hips, also features with a padded cotton front, 17cm deep with hook/loop closure to give mild abdominal pressure.

The 20cm deep back pocket encloses a thermoplastic panel which is moulded in hot water at 65° and shaped to the spine.

Size	Code	Waist Measurement
S	*/83	64 – 71 cm
M	*/85	74 – 81 cm
L	*/87	84 – 91 cm
XL	*/88	94 – 102 cm

* Insert product code

Contains Latex

The Proflex Belt

Features Include:

- Hook/loop fastening elastic belt, with an elastic back pocket to accommodate a panel.
- Available with a choice of back panels.
- A cotton fulcrum strap which can be positioned in the lumbar or sacral area from extra compression on the spine.
- The front depth is 20cm.

The Lumbarform Belt

Features Include:

- Triple elastic fulcrum straps at the back which attach to one simple strap at the front, giving extra compression on the spinal curve.
- Two flexible stays which keep the belts smooth at the front for comfort when sitting.
- Ventilated elastic which has Lycra binding to prevent chafing.
- The Lumbarform belt range is available with a choice of back panels and stays.

Standard Lumbarform Belt

(Flexible Panel)

Product Code: LBF/9 (23cm back depth)

The double-layer back pocket encloses a panel of polythene lined with closed cell foam, which becomes flexible with body heat.

TLSO Back Brace

The TLSO back brace is a unique prefabricated orthosis for post-operative, post traumatic, or chronic spinal pathology. The orthosis provides full circumferential rigid support from T-2 through S-5 and restricts forward, lateral and posterior motion and encourages a hyperextension posture.

The anterior and posterior panels are removable and heat formable to customize fit and functionality of the brace when worn. The anterior sternal assembly can be locked to prevent tampering and assure proper fit when donning and doffing the assembly. Elastic shoulder straps adjust easily and are wide to minimise any pressure. Compression adjustments are made by pulling each of the lateral lacer assemblies handles to the desired level of comfort for the patient. The components are washable. The TLSO is made of a breathable foam and mesh laminate that allows for optimal comfort to the patient."

Sling strap

Sling Strap is a non-stretch padded 50mm wide material that is combined with Hook Y-Tabs to provide an adjustable and versatile sling system.

Sling Strap can be cut to the required length to produce a simple collar n' cuff or similar type of sling. This reduces waste and the adjustability of the material ensures that the sling will fit and can be easily adjusted. Sling Strap is padded for comfort around the neck and the modern black colour improves patient compliance and looks better for longer. Sling Strap is supplied in a pack that contains: 2 x 12m or 2 x 6m rolls and 20 Y-tab closures.

Air X Polycentric Knee Brace

Product Code: AMP

A 30cm long wrap-around knee brace offering good medial and lateral support using quality polycentric hyperstop hinges. Hook/loop return closures make this brace easy to apply and the posterior straps can be adjusted quickly to allow accurate midline positioning of the polycentric joints

Air X gives great compression and support and the properties of the textile offer a high degree of breathability and reduction in moisture. This makes the brace comfortable to wear for extended periods of time and improves patient compliance.

Air X VK Long Knee Brace

Product Code: AVK

The VK Knee Brace has been one of the industry leading long wrap-around knee braces for many years and thousands of patients have benefited from this easy to use comfortable brace in the treatment of mediolateral instability. The longer length (41cm) provides increased medial and lateral support for the unstable valgus or varus knee. The front opening design makes it easy to apply – even for those patients with limited dexterity

The VK Knee Brace is now available using the excellent properties of the Air X 3D spacer fabric.

Air X gives great compression and support and the properties of the textile offer a high degree of breathability and reduction in moisture. This makes the brace even more comfortable to wear for extended periods of time and improves patient compliance.

Buttress Knee Sleeve

Product Code: BN

A standard Neoprene knee sleeve with open patella, incorporating a buttress pad. The Buttress Knee Sleeve can be selected with a buttress pad to oppose medial/lateral patella migration; caused by ligament deficiency.

The buttress pad positions are defined as viewed by the patient, for example a left buttress pad would give lateral support to the left leg and medial support to the right leg. A full buttress is also available.

Ankle Contracture AFO

Product Code: LEB

A quality AFO constructed from lightweight polycarbonate that provides heel suspension to assist in the treatment and prevention of pressure sores. The clear polycarbonate frame allows the heel to be monitored without the need to remove the orthosis. The AFO is also effective in the management of foot drop and non-fixed plantar flexion contractures.

The liner is treated to wick away moisture and provide a drier cleaner environment thus reducing the risk of bacterial build up and improve patient compliance. There is a padded anti-rotation bar for positioning and prevention of lateral/medial hip rotation. The wide design of the frame also provides lateral ankle protection if patients roll onto their side during sleep. Adjustable toe rest and removable anti-slip sole unit

AFO-2 Classic Lateral/KT AFO-1 Classic Lateral EasyFit

Product Code: KTAFO1/L

Strong and lightweight solution to provide constant support to the foot. Maximum strength and durability. Sole can be easy adapted to different shoes. Velcro closure, with return loop.

Recommended for use:
- Foot drop can occur after a stroke or traumatic brain injury or as a result of multiple sclerosis, neuromuscular atrophy, or peroneal paralysis;
- Foot and calf extensors after operation;
- Ankle arthritis.

Maximum body weight tolerance is 100 kg.

Premium quality pre-preg carbon fibre 100%.

Available in a right and left.

*Easy Fit means product with trimmable sole part – what gives possibility to put it inside the shoe easier and to make corrections without any grinding.

Universal Foam Ankle

Product Code: UFA

Two plastic medial and lateral ankle supports, shaped to fit comfortably over the malleoli, are lined with closed-cell foam.

The plastic supports are attached to a 'stirrup' of closed cell foam, fixed with hook/loop and worn under the heel.

One size; universal design fits left and right.

Size	Code	NHSCC Codes
Universal	UFA/10	GRA4930

Air/Gel Ankle

Product Code: AGA/10

Two plastic medial and lateral ankle supports, shaped to fit comfortably over the malleoli, are lined with closed-cell foam. The two detachable air/gel bags line the splint and can be used for hot or cold therapy.

The plastic supports are attached to a 'stirrup' of closed cell foam, fixed with hook/loop and worn under the heel.

One size; universal design fits left and right.

Sling strap

Sling Strap is a non-stretch padded 50mm wide material that is combined with Hook Y-Tabs to provide an adjustable and versatile sling system.

Sling Strap can be cut to the required length to produce a simple collar n' cuff or similar type of sling. This reduces waste and the adjustability of the material ensures that the sling will fit and can be easily adjusted. Sling Strap is padded for comfort around the neck and the modern black colour improves patient compliance and looks better for longer. Sling Strap is supplied in a pack that contains: 2 x 12m or 2 x 6m rolls and 20 Y-tab closures.

Product Code	Length	NHSCC Code	Width

SS/5.5	2 x 6 Metres	ESM137	5.5cm

Humeral Stabilising Orthosis

Product Code: HSO/10/K (full kit)
HSO/10 (sleeve only)

A unique lightweight, comfortable humeral sleeve with a ventilated 'skin friendly' protective lining, which means there is no humeral sock required.

The universal humeral is fully customisable, the thermo formable external sleeve can be altered using standard scissors (A sizing guide is included with sleeve).

An optional kit is available which ensures immobilisation of the arm, eliminating swinging of the arm. Kit includes a Deluxe Shoulder Immobiliser, product code: DSI (See pg. 33).

Code	Description
HSO/10/K	Full Kit
HSO/10	Sleeve Only
HSO/10/E	Sleeve Only (Extended)

Soft Humeral

Product Code: PSH

A lightweight preformed brace made from a tri-lamination with outer fabric facing, semi-flexible foam and inner smart-textile lining.

- Inner lining has CoolMax treatment to reduce perspiration and Ion/ silver treatment to improve temperature control within the brace.
- The kit is supplied with lightweight humeral sock and fully adjustable hook/loop strap closures.
- If required, the brace can be trimmed.

Promedics Hip Joint

Product Code: PHJ/10

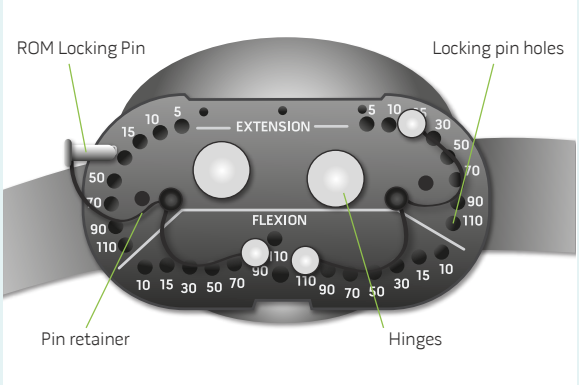
The Promedics Hip Joint is 40cm in length and allows control of abduction (between – 5 to +25°) with variable flexion and extension stops. The abduction axis may be set at various positions while the brace is on the patient, by simply turning the central adjustment screw with the allen key provided.

Universal Hip Abduction Waist Belt

Product Code: JBB/10

Universal Hip Abduction Belt with Shoulder Strap

Product Code: JBBS/10



GENURANGE

- A geared, polycentric hinge which can be set to limit the range of flexion and extension at the knee.
- Available in offsets of 12mm, 18mm and 32mm, with strong aluminium side steels which can be shaped with a bending iron.
- Detachable headplates allow easy removal of the hinges from the cast brace.
- Order hinges in pairs.

Genurange
Fracture Bracing Hinges

Product Code: GNF

Order Genurange Range of Motion Hinges in pairs. Our Genurange fracture brace hinges are available in 3 sizes for medial and lateral offset

- The geared polycentric hinge can be set to limit range of flexion and extension at the knee
- Strong aluminium side steels which can be shaped with a bending iron
- Detachable headplates allow easy removal of the hinges from the cast braces
- Supplied in pairs

6 Inch	GON/10

neofrakt®

The rigid foam splint system

The principle of the NEOFRAKT® system is the combination of polyurethane rigid foam as a splint, and the elastic stocking as bandage surface. The polyurethane rigid foam NEOFRAKT® employs was developed especially for medical purposes. The NEOFRAKT® bandage is applied in soft condition. It hardens on the body and is easy to modify.

NEOFRAKT® can not only be used for simple splints and cylinder bandages. It is also very suitable for complicated temporary orthopaedic applications.

The polyurethane hard and soft foams were especially developed for medical applications. These polyurethanes harden by mixing 2 components which are packed in 2 separate cans. These cans are connected to each other by a plastic ring and they are not sold separately.

- Removable through zip(s) and/or hook / loop fastener(s)
- Self moulding – perfect fit
- Easy to apply
- X-ray transparent
- Low weight
- Water resistant
- Durable & Comfortable, 100%

Removable full leg walker

Removable corset

Lower arm with thumb hole

Thorax corset with forehead support indicators

Loop Strap

Product Code: LS

Loop strap is a hard-wearing strap that will accommodate multiple hook closures. Loop Strap is hook receptive on both sides and can be cut to the required length. Loop Strap really is a hard-wearing, long lasting strap solution that will have multiple applications in the splinting workshop. Loop Strap will last and last!

Width	Length	Code
20 cm	10 Meter roll	LS/20
25 cm	10 Meter roll	LS/25
30 cm	10 Meter roll	LS/30
40 cm	10 Meter roll	LS/40
50 cm	10 Meter roll	LS/50

Terry Strap

Product Code: TS

Terry Strap is a padded, adhesive backed, terry towel lined material that is available in three widths. 3mm thick Terry Strap is a versatile material that is effective when used to line splints or to pad the edges of casts or splints. The structure of the material allows for a limited amount of stretching and shaping to help when forming it to the edges or inner surface of a splint or cast. This is a really useful material to have in the plaster room and the splinting workshop and it will greatly improve the comfort and finish of any splint or cast.

Width	Length	Code
3 cm	15 Metre roll	TS/30
5 cm	15 Metre roll	TS/50
8 cm	15 Metre roll	TS/80

SL Iron

Product Code: NC/79615

Small, narrow iron is perfect for applying iron on tapes and fasteners. Low-profile, trowel shaped iron is ideal for sealing narrow seam tape and fasteners to neoprene. Heats from 66 degrees to 199 degrees in 90 seconds. Blinking light alerts to when ready. Temperature dial is on the handle for easy reference. Includes a sock cover and a sturdy metal stand for safe storage.

Uses standard 120 volt wall outlet. Total length of the iron measures.

Code	Description
NC/79615	SL Iron

Steinel Heat Gun

Product Code: HT/GUN

A 240 Volt heat gun, with variable temperature control between 300 degrees and 525 degrees, and 2-speed airflow control. Lightweight and free standing, designed for use with all types of thermoplastics.

Code	Description
HT/GUN	240 Volt Heat Gun

Leader in thermoplastic innovations

Based on innovative technologies, Orfit develops and produces the most precise and reliable thermoplastic materials for medical devices that improve patient treatment around the world.

Orthotic fabrication materials from Orfit offer the highest possible performance to both therapists and patients in physical rehabilitation.

Our wide product range consists of engineered thermoplastics that will help you solving your most challenging splinting requirements. Through workshops and courses, our experts provide lots of tips and tricks to make your orthotic fabrications functional and successful.

All of our thermoplastic materials are developed and produced to make sure that they are perfectly suited to their purpose and your needs.

Juraprene Splinting Material

Juraprene is a welcome addition to Promedics splinting range. A latex free neoprene material which can be used to create custom splints. Juraprene offers creative splinting options while providing warmth, compression, comfort and support.

Features of Juraprene include:

- 3mm thickness to provide light, restrictive support and compression as required.
- Plush lined neoprene for improved comfort and to reduce pressure points.
- Latex Free
- Machine Washable
- Sheet size 45 x 61 cm

Orfit Dry Heater

Product Code: 32503/230UK (Dry Heater)

Portable heating device for the activation of thermoplastic orthotic fabrication materials.

Features:
* Full power at your fingertips.
* Fast activation of your orthotic fabrication material
* Smart casing. Portable case that makes your work easy on the go.
* Effective heating control. Excellent temperature control and temperature uniformity with a digital display and integrated timer.

Voltage: 220-240V
Dimensions: 455 mm L x 320 mm W x 30 mm H

Code	Description
32503/230UK	Dry Heater
32501/4	Individual Teflon sheet

Benefits:
- Short warming up time and very quick set-up.
- Quick activation.
- No water necessary.
- Compatible with different electrical grids.
- Thermoplastic splint cools down more slowly when dry heated.
- Compact device
- Mobile and small device.
- Can be used for various thermoplastic sheet materials and precuts.
- Safe to use.
- Hygienic.

Junior Wrist/Thumb Brace

Product Code: JWTO

A wrist brace made of Neoprene which can be cut without fraying to fit around swollen joints, giving compression and excellent conformity.

- Incorporating a malleable metal thumb stay to control an unstable CMC joint; the thumb section can be trimmed to allow IP flexion
- Use for: Juvenile chronic arthritis, soft tissue injury.

Size	Code (Left)	Code (Right)	Wrist Circumference	Palmar Bar Length
S	*/13	*/23	12 cm	14 cm
M	*/15	*/25	14 cm	14 cm
L	*/17	*/27	16 cm	16 cm

* Insert product code

Tracy Brace

Product Code: TWB

A wrist brace made of quality woven elastic for comfort and durability, enclosing an aluminium palmar bar which can be easily removed.

- The design is cut below the palmar crease and will not impinge on the MCP joints allowing for a fully functional hand
- Use for: Colles' fracture, wrist fracture and arthritis
- Length of wrist brace is 14-15cm

Paediatric
Lancaster Shoulder Brace

Product Code: LSSB/10 (baby) LSSP (Paediatric)

A universal adjustable sling with shoulder strap and body wrap for shoulder immobilisation.

- Arm envelope can be easily trimmed for custom-fit.
- Fully adjustable shoulder strap with padded sleeve for comfort around neck.
- This sling can be easily adjusted to fit most paediatric patients.

Size	Code	Age
Baby	LSSB/10	0 – 18 Months
Paediatric	LSSP/10	2 – 10 Years

Paediatric Trauma Sling

Product Code: TAU/P

The Trauma Sling is a high quality universal sling that has multiple uses within the healthcare field. The Trauma Sling can be used as a traditional sling or for arm elevation following trauma, burns or post-operative management of the shoulder or upper arm.

The design and quality of materials used offer protection, comfort and ease of access to the damaged limb. The Trauma Sling is easy to apply and is supplied vacuum packed to reduce storage volume.

Terms & Conditions

Promedics Orthopaedics Limited Terms and Conditions for the supply of goods to trade customers

1. Definitions

1.1 "Contract" means the contract for the sale and purchase of Goods in accordance with these Terms. "Customer" means the person, firm or company whose order for Goods is accepted by Promedics in accordance with these Terms. "Goods" means the goods (including any instalment of the goods) which Promedics is to supply in accordance with these Terms. "Promedics" means Promedics Orthopaedics Limited, (company number 06455477) whose registered office is at Mentor House, Ainsworth Street, Blackburn, Lancashire, BB1 6AY and whose main trading address is Port Glasgow Industrial Estate, Gareloch Road, Port Glasgow, Scotland, PA14 5XH, and whose registered VAT number is 927148511. "Terms" means the standard terms of sale set out in this document as amended from time to time and (unless the context otherwise requires) includes any special terms agreed in writing between the Customer and Promedics. "Website" means the website operated by Promedics with web address https://promedics-healthcare-professionals.co.uk/.

1.2 A reference in these Terms to a provision of a statute shall be construed as a reference to that provision as amended, re-enacted or extended at the relevant time. The headings in these Terms are for convenience only and shall not affect their interpretation.

2. Basis of the sale

2.1 Promedics shall sell and the Customer shall purchase the Goods in accordance with these Terms. These Terms apply to the Contract to the exclusion of any other terms that the Customer seeks to impose or incorporate, or which are implied by trade, custom, practice or course of dealing.

2.2 No variation to these Terms shall be binding unless agreed in writing between an authorised representative of Promedics and the Customer.

2.3 Any typographical, clerical or other error or omission in any sales literature, quotation, price list, acceptance of offer, invoice or other document or information issued by Promedics (including information on the Website) shall be subject to correction without any liability on the part of Promedics.

3. Orders and acceptance

3.1 Prior to placing orders, the Customer shall be required to complete an application form provided by Promedics. The Customer shall ensure that all information provided to Promedics on such application form is complete and accurate in all respects.

3.2 The Customer may place an order by telephone or email or, where agreed between Promedics and the Customer, via Electronic Data Interchange (EDI). Each order is an offer by the Customer to buy the Goods specified in the order subject to these Terms.

3.3 Where Promedics acknowledges receipt of an order, such acknowledgement shall not constitute acceptance of the order. No order submitted by the Customer shall be deemed to be accepted by Promedics, and the Contract shall not come into existence, unless and until:

3.3.1 in the case of custom-made Goods, acceptance is confirmed in writing by Promedics's authorised representative by issuing an order confirmation; or

3.3.2 in the case of Goods that are not custom-made, acceptance is confirmed by Promedics despatching the Goods, or by Promedics informing the Customer that the Goods are ready for collection (where applicable), or by Promedics's authorised representative issuing an order confirmation, whichever is the earlier.

3.4 Each order accepted by Promedics shall constitute a separate Contract, formed in accordance with these Terms.

3.5 The Customer shall be responsible for ensuring that any order and any specification or design (where applicable) submitted by the Customer is complete and accurate.

3.6 Where the Customer's order refers to Goods which are unavailable, or refers to prices of Goods or delivery charges which are incorrect or not then current, Promedics shall contact the Customer and agree an amended order, after which Promedics's authorised representative will confirm acceptance of such order in writing by issuing an order confirmation, at which point the Contract shall come into existence.

3.7 The Customer shall be responsible to Promedics for ensuring the accuracy of the terms of any order confirmation, and shall carefully check any order confirmation provided by Promedics on receipt thereof and promptly inform Promedics of any discrepancies therein. Failure to inform Promedics promptly (and in any event prior to despatch of the Goods or any instalment thereof) of any discrepancies within an order confirmation shall be deemed to be acceptance by the Customer of the accuracy of such order confirmation.

3.8 The quantity, quality and description of the Goods shall be as set out in Promedics's despatch note.

3.9 Promedics reserves the right to make any changes in the specification of the Goods, which do not materially affect their quality or performance, or which are required to ensure they comply with applicable safety, statutory or regulatory requirements.

3.10 No order which has been accepted by Promedics may be cancelled or amended by the Customer except with the agreement in writing of Promedics and on terms that the Customer shall indemnify Promedics in full against all loss (including loss of profit), costs (including the cost of all labour and materials used), damages, charges and expenses incurred by Promedics as a result of such cancellation or amendment.

3.11 The Customer acknowledges that Promedics is not obliged to accept orders submitted by the Customer.

4. Price of the goods

4.1 Subject to clause 2.3, the price of the Goods shall be the prices shown on the current price list agreed between the Customer and Promedics. Where no price list has been agreed, or where a price list has expired or been cancelled by Promedics, the prices set out in Promedics's then-current standard price list shall apply. Notwithstanding the foregoing, the price for custom-made Goods shall be the price set out on Promedics's order confirmation.

4.2 In the case of custom-made Goods, the price for the Goods shall be the price agreed between the Customer and Promedics in relation to such custom-made Goods.

4.3 Prices for Goods may change from time to time without notice.

4.4 Notwithstanding condition 4.1, Promedics reserves the right, by giving written notice to the Customer at any time before despatch of the Goods, to increase the price of the Goods or the delivery charges to reflect any increase in the cost to Promedics which is due to any increase in the cost of delivery charges, a change in delivery dates, quantities or specifications for the Goods which is requested by the Customer, or any delay caused by any of the Customer's instructions or failure by the Customer to give Promedics adequate information or

instructions.

4.5 Unless otherwise agreed between the Customer and Promedics in writing, the Customer shall be liable to pay the delivery charges (which may include the cost of insurance where applicable) in respect of each shipment of the Goods. Such delivery charges shall be as set out on the current price list agreed between the Customer and Promedics, or where such charges are not set out on such price list, as set out on the order confirmation, or where such charges are not set out on the order confirmation, in accordance with Promedics standard delivery charges in force from time to time. Any delivery information set out on the Website (including details of delivery charges) is indicative only and shall not be binding on Promedics.

4.6 If the Customer orders Goods for delivery to a destination outside of the UK, such order may be subject to import duties and taxes which are applied when the delivery reaches that destination. Please note that Promedics has no control over these charges and cannot predict their amount.

4.7 Unless otherwise agreed between the Customer and Promedics in writing, the Customer is responsible for payment of any such import duties and taxes. Please contact your local customs office for further information before placing an order.

4.8 The Customer must comply with all applicable laws and regulations of the country for which the Goods are destined. Promedics will not be liable or responsible if the Customer breaks any such laws or regulations.

4.9 The price of the Goods is exclusive of any applicable value added tax, which, where applicable, the Customer shall be additionally liable to pay to Promedics.

5. Terms of payment

5.1 Subject to any special terms agreed in writing between the Customer and Promedics, Promedics will raise an invoice at or after the time of despatch of the Goods, or the time at which Promedics notifies the Customer that the Goods are ready for collection, as the case may be.

5.2 Unless otherwise agreed between the Customer and Promedics in writing, the Customer shall pay the full amount invoiced to it by Promedics within 30 days of the date of Promedics's invoice and in the currency shown on the invoice. Promedics shall be entitled to recover the price of the Goods and delivery charges (where applicable) notwithstanding that delivery of the Goods may not have taken place.

5.3 Notwithstanding condition 5.1 and condition 5.2, Promedics may require a deposit or payment in full from Customers prior to the despatch or making available of Goods. In such cases, Promedics will issue an invoice to the Customer which will be payable immediately on receipt.

5.4 All payments shall be made by the Customer without any deduction or set off by electronic transfer into a bank account nominated by Promedics from time to time. The time of payment of the price shall be of the essence of the Contract.

5.5 If the Customer fails to make any payment on the due date then, without limiting any other right or remedy available to Promedics, Promedics may:

5.5.1 terminate the Contract or suspend any further deliveries to the Customer;

5.5.2 appropriate any payment made by the Customer to such of the Goods (or the Goods supplied under any other contract between the Customer and Promedics) as Promedics may think fit (notwithstanding any purported appropriation by the Customer);

5.5.3 withhold and/or offset amounts due from Promedics to the Customer against amounts due from the Customer to Promedics under any other contract between Promedics and the Customer (notwithstanding any terms of the Customer to the contrary); and

5.5.4 charge the Customer interest (both before and after any judgment) on the amount unpaid, at the rate of 3 per cent per annum above the Bank of England's base rate from time to time, but at 3 per cent per annum for any period when that base rate is below zero per cent, until payment in full is made (a part of a month being treated as a full month for the purpose of calculating interest). The parties agree that this constitutes a substantial remedy in terms of the Late Payment of Commercial Debts (Interest) Act 1998.

5.6 Where Promedics terminates the Contract in accordance with condition 5.5.1, the Customer shall immediately pay to Promedics all of Promedics's outstanding unpaid invoices and interest and, in respect of Goods supplied but for which no invoice has been submitted, Promedics shall submit an invoice, which shall be payable by the Customer immediately on receipt.

5.7 Where Promedics has agreed to provide the Customer with a limited credit facility, Promedics may refuse to accept any further orders from the Customer where the Customer has exceeded the agreed credit facility at the time of such order(s), or where such order(s) may increase the sums due from the Customer beyond the agreed credit facility.

5.8 Promedics may withdraw or reduce credit facilities at any time and without notice.

6. Delivery

6.1 Delivery of the Goods shall be made by the Customer or a carrier on behalf of the Customer collecting the Goods at Promedics's premises at any time after Promedics has notified the Customer that the Goods are ready for collection, or, if some other place for delivery is agreed in writing by Promedics, by Promedics delivering the Goods to that place.

6.2 Any dates quoted for delivery of the Goods are approximate only and Promedics shall not be liable for a delay however caused. Time for delivery shall not be of the essence of the Contract. The Customer may specify a preferred delivery date when placing an order, however this preferred delivery date shall not be binding on Promedics. The Goods may be delivered in advance of the quoted or requested delivery date on giving reasonable notice to the Customer.

6.3 Where the Goods are to be delivered in instalments, each delivery shall constitute a separate Contract and failure by Promedics to deliver any one or more of the instalments in accordance with these Terms or any claim by the Customer in respect of any one or more instalments shall not entitle the Customer to treat the Contract as a whole as repudiated.

6.4 If, following acceptance of an order by Promedics, Promedics fails to deliver the Goods (or any instalment) for any reason other than any cause beyond Promedics's reasonable control or the Customer's fault, and Promedics is accordingly liable to the Customer, Promedics's liability shall be limited to the cost to the Customer (in the cheapest available market) of similar goods to replace those Goods not delivered, less the price of those Goods not delivered, where such liability shall be limited to a sum equivalent to the price of the Goods not delivered.

6.5 If the Customer fails to take delivery of the Goods or fails to give Promedics adequate delivery instructions for delivery (otherwise than by reason of any cause beyond the Customer's reasonable control or by reason of Promedics's fault) then, without limiting any other right or remedy available to Promedics, Promedics may:

6.5.1 store the Goods until actual delivery and charge the Customer for the reasonable costs (including insurance) of storage; or

6.5.2 sell the Goods at the best price readily obtainable and (after deducting all reasonable storage and selling expenses) charge the Customer for any shortfall below the price under the Contract.

6.6 Damage on delivery ascertainable on reasonable inspection, and errors in the quantity or specifications of the Goods delivered against the applicable despatch note, must be reported to Promedics and the carrier within 21 days of delivery. Failure to report damage/errors within this period (specifying invoice or despatch note number and date of delivery) may lead to the Customer being charged the full amount of the corresponding invoice or the full price of the Goods (whichever is the higher), and the provisions of condition 6.7 will not apply. Promedics may require photographic evidence of damaged goods, and the Customer shall provide all reasonable assistance in this regard.

6.7 Subject to condition 6.6, Promedics will, at its option, where Goods are accepted by Promedics as damaged, repair or replace the damaged Goods or refund the price of the damaged Goods in full, save to the extent that Promedics holds that such damage is caused by the carrier.

6.8 If requested by Promedics, the Customer shall return the damaged or excess Goods or those Goods that do not match the specification to Promedics at the Customer's cost. Customer shall return such Goods in a saleable condition, in their original boxes with seals and shrink-wrap intact, and Promedics shall be entitled to charge the Customer the full price of such Goods if they are not returned in accordance with the provisions of this condition 6.8.

6.9 Promedics will, at its sole discretion, accept the return of Goods (excluding custom-made Goods) that have been ordered by the Customer in error provided that the Customer notifies Promedics within 21 days of delivery of its wish to return such Goods. Customer shall return the Goods at the Customer's cost, within 14 days of notifying Promedics of its wish to return such Goods, in a saleable condition, in their original boxes with seals and shrink-wrap intact. Promedics shall be entitled to charge the Customer a restocking fee.

7. Risk and property

7.1 Except as otherwise agreed between Promedics and the Customer in writing, risk of damage to or loss of the Goods shall pass to the Customer:

7.1.1 in the case of Goods to be delivered at Promedics's premises, at the time when Promedics notifies the Customer that the Goods are available for collection; or

7.1.2 in the case of Goods to be delivered otherwise than at Promedics's premises, at the time of delivery or, if the Customer wrongfully fails to take delivery of the Goods, at the time when Promedics has tendered delivery of the Goods.

7.2 Notwithstanding delivery and the passing of risk in the Goods, or any other provision of these Terms, the property in the Goods shall not pass to the Customer until Promedics has received in cleared funds payment in full of the price of the Goods and the delivery charges (if applicable) and of all other Goods agreed to be sold by Promedics to the Customer for which payment is then due.

7.3 Until such time as the property in the Goods passes to the Customer, the Customer shall hold the Goods as Promedics's fiduciary agent and bailee, and shall keep the Goods separate from those of the Customer and third parties and properly stored protected and insured and identified as Promedics's property.

7.4 Until such time as the property in the Goods passes to the Customer (and provided the Goods are still in existence and have not been resold), Promedics may at any time require the Customer to deliver up the Goods to Promedics and, if the Customer fails to do so forthwith, enter on any premises of the Customer or any third party where the Goods are stored and repossess the Goods. Promedics shall not be liable to the Customer for any damage as a result of the removal or retrieval of the Goods.

7.5 The Customer shall not be entitled to pledge or in any way charge by way of security for any indebtedness any of the Goods which remain the property of Promedics, but if the Customer does so all monies owing by the Customer to Promedics shall (without limiting any other right or remedy of Promedics) forthwith become due and payable.

8. Warranties and liability

8.1 Promedics provides a warranty that on delivery and for a period of 12 months from delivery, the Goods shall:

8.1.1 subject to condition 9.1, conform in all material respects with their description in the despatch note; and

8.1.2 be free from material defects in design, material and workmanship.

8.2 Subject to condition 8.3, if:

8.2.1 the Customer gives Promedics notice in writing within a reasonable time of discovery (specifying invoice or despatch note number and date of delivery) that some or all of the Goods do not comply with the warranty set out in condition 8.1;

8.2.2 Promedics is given a reasonable opportunity of examining the Goods; and

8.2.3 if requested by Promedics, the Customer returns the Goods to Promedics at the Customer's cost,

Promedics will, at its option, where Goods are accepted as defective, repair or replace the defective Goods, or refund the price of the defective Goods in full.

8.3 Promedics shall not be liable for breach of the warranty set out in condition 8.1 if:

8.3.1 the Customer makes any further use of the Goods after giving notice to Promedics under condition 8.2, including selling the Goods to a third party;

8.3.2 the defect arises as a result of Promedics following any drawing, design, specification or other request supplied by the Customer;

8.3.3 the Customer or a third party alters or repairs the Goods without Promedics's written consent;

8.3.4 the defect arises because the Customer failed to follow Promedics's oral or written instructions as to the storage, use or maintenance of the Goods or (if there are none) good trade practice;

8.3.5 the defect arises as a result of fair wear and tear, wilful damage, negligence, failure to use the Goods in accordance with instructions provided, or abnormal storage or working conditions;

8.3.6 the defect arises as a result of excessive use or use beyond the normal lifespan or intended period of use of the Goods (for example where Goods are single-use items) or where the Goods are used outside their intended purpose; or

8.3.7 the Goods differ from their description or specification as a result of changes made to ensure they comply with applicable statutory or regulatory requirements.

8.4 Except as provided in this condition 8, Promedics shall have no liability to the Customer in respect of the Goods' failure to comply with the warranty set out in condition 8.1.

8.5 The terms implied by sections 13 to 15 of the Sale of Goods Act 1979 are, to the fullest extent permitted by law, excluded from the Contract. Except as expressly provided in these Terms, and except where the Goods are sold to a person dealing as a consumer (within the meaning of the Unfair Contract Terms Act 1977), all warranties, conditions or other terms implied by statute or common law are excluded to the fullest extent permitted by law.

8.6 These Terms also apply to any repaired or replacement Goods supplied by Promedics to the Customer.

8.7 Any Goods replaced will belong to Promedics.

8.8 Promedics shall be under no liability under the warranty in condition 8.1 (or any other warranty, condition or guarantee) if the total price for the Goods has not been paid by the due date for payment.

9. Quality/Description

9.1 All drawings, descriptive matter, specifications and advertising issued by Promedics and any descriptions or illustrations contained in Promedics's catalogues/brochures or on Promedics's Website are issued or published for the sole purpose of giving an approximate idea of the Goods described in them. They will not form part of the Contract and the Customer accepts that colours reproduced in any electronic image or brochure may differ from the actual Goods.

9.2 The Customer shall indemnify Promedics and keep Promedics indemnified in full against all liabilities, costs, expenses, damages and losses (including any direct, indirect or consequential losses, loss of profit, loss of reputation and all interest, penalties and legal and other professional costs and expenses) suffered or incurred by Promedics as a result of or in connection with: (i) any defect in Goods caused in whole or in part by Promedics supplying such Goods in accordance with the Customer's instructions or specification; and (ii) any infringement or alleged infringement of any intellectual property rights or any breach of applicable law or regulation caused in whole or in part by Promedics complying or attempting to comply with the Customer's instructions or specification or the use, manufacture or supply of Goods in accordance with the Customer's instructions or specification. This condition shall survive the termination of the Contract.

10. Limitation of Liability

10.1 Subject to condition 6.4 and condition 8, the following provisions set out the entire financial liability of Promedics (including any liability for

the acts or omissions of its employees, agents and sub-contractors) to the Customer in respect of any breach of these Terms and any representation, statement or tortious act or omission including negligence arising under or in connection with the Contract.

10.2 Nothing in these Terms excludes or limits the liability of Promedics for death or personal injury caused by Promedics's negligence, or liability for defective products under the Consumer Protection Act 1987, or for fraudulent misrepresentation.

10.3 Subject to conditions 10.1 and 10.2:

10.3.1 Promedics's total liability in contract, tort (including negligence or breach of statutory duty), misrepresentation, restitution or otherwise, arising in connection with the performance or contemplated performance of the Contract shall be limited to the price of the Goods, except as expressly provided in these Terms; and

10.3.2 Promedics shall not be liable to the Customer for any indirect or consequential loss or damage (whether for loss of profit, loss of business, depletion of goodwill or otherwise), costs, expenses or other claims for consequential compensation whatsoever (howsoever caused) which arise out of or in connection with the Contract.

10.4 Promedics shall not be liable to the Customer or be deemed to be in breach of the Contract by reason of any delay in performing, or any failure to perform any of Promedics's obligations in relation to the Goods, if the delay or failure was due to any cause beyond Promedics's reasonable control.

11. Insolvency of the Customer

11.1 This condition 11 applies if:

11.1.1 the Customer makes a voluntary arrangement with its creditors or (being an individual or firm) becomes bankrupt or (being a company) becomes subject to an administration order or goes into liquidation (otherwise than for the purposes of amalgamation or reconstruction); or

11.1.2 an encumbrancer takes possession of, or a receiver is appointed to, any of the property or assets of the Customer; or

11.1.3 the Customer ceases, or threatens to cease, to carry on business; or

11.1.4 the Customer's financial position deteriorates to such an extent that in Promedics's opinion the Customer's capability to adequately fulfil its obligations under the Contract has been placed in jeopardy; or

11.1.5 Promedics reasonably apprehends that any of the events mentioned above is about to occur in relation to the Customer and notifies the Customer accordingly.

11.2 If this condition applies then, without limiting any other right or remedy available to Promedics, Promedics may cancel the Contract or suspend any further deliveries under the Contract without any liability to the Customer, and if the Goods have been delivered but not paid for the price shall become immediately due and payable notwithstanding any previous agreement or arrangement to the contrary.

12. General

12.1 A notice required or permitted to be given by either party to the other under these Terms shall be in writing addressed to that other party at its main trading address or such other address (including email address) as may at the relevant time have been notified pursuant to this provision to the party giving the notice.

12.2 Any notice shall be deemed to have been received:

12.2.1 if delivered by hand, at the time the notice is left at the proper address;

12.2.2 if sent by pre-paid first-class post or other next working day delivery service, at 9.00 am on the second business day after posting; or

12.2.3 if sent by email, at the time of transmission, or, if this time falls outside business hours in the place of receipt, when business hours resume. In this condition 12.2.3, business hours means 9.00am to 5.00pm Monday to Friday on a day that is not a public holiday in the place of receipt.

12.3 Condition 12.2 does not apply to the service of any proceedings or other documents in any legal action or, where applicable, any arbitration or other method of dispute resolution.

12.4 The Contract is between Promedics and the Customer. No other person, firm or company has any rights to enforce any of its terms.

12.5 No waiver by Promedics of any breach of the Contract by the Customer shall be considered as a waiver of any subsequent breach of the same or any other provision.

12.6 If any provision of the Contract is held by a court or other competent authority to be invalid or unenforceable in whole or in part the validity of the other provisions of the Contract and the remainder of the provision in question shall not be affected.

12.7 Any dispute arising under or in connection with the Contract shall be governed by the laws of England, and the Customer agrees to submit to the exclusive jurisdiction of the English courts.

12.8 Promedics shall be entitled to assign its rights and obligations under these Terms and/or the Contract.
