

# Procool Wrist Thumb Restriction

This extended version of the thumb restriction splint provides additional wrist support for a combination of wrist and thumb conditions. A wide pull through wrist strap allows easier brace application, adjustment and fastening, offering extra compression and support at the wrist. Function and fit without bulk.

Procool is a range of lightweight and breathable splints producing excellent compression and support for a wide range of conditions and injuries. Made with tiny perforations in the Neoprene for comfortable wear and a terry cloth lining that feels good against the skin. Procool offers you just the fit you want - excellent stability without excessive bulk.

Provides wrist support for an array of injuries, conditions, pre-and post-operations such as:

- + Arthritis
- + Sprains and strains
- + Soft tissue injuries and conditions
- + Instability
