

Jura Black Wrist / Thumb Brace

The Jura Black Wrist / Thumb Brace immobilises and protects the wrist and thumb following tendonitis and other soft tissue injuries such as sprains/strains, and post-trauma healing. Lightweight, breathable and contoured for a comfortable fit. Slide-on design with D-ring closures allow easy application.

Provides wrist and thumb support for an array of injuries, conditions, pre-and post-operations such as:

- + Arthritis
- + Sprains and strains
- + Soft tissue injuries and conditions
- + Instability
- + Slide-on design with D-ring closures allow easy application especially for patients with reduced dexterity

Made from dual-compression elastic, which is lightweight, breathable and contoured for a comfortable fit.

The palmer bar is fully adjustable, allowing you to customise it to the most comfortable fit for you.

Slide-on design with D-ring closures allow easy application.
