

# Paediatric Neoprene Wrist/Thumb Brace

Made from a specially formulated neoprene fabric, which makes the brace easy to apply, with a minimum of pain and fuss. The straps are adjustable to allow for a personalised fit and the palm features a bar casing (made of metal) that prevents your child from moving their wrist, helping to ensure that their recovery is as quick and painless as possible.

Provides wrist and thumb support for an array of injuries, conditions, pre-and post-operations such as:

- + Arthritis
- + Sprains and strains
- + Soft tissue injuries and conditions
- + Instability
- + Post fracture management

Manufactured in a range of coloured Neoprene; royal blue, red, black and purple.

Removable metal stay on the inner wrist and thumb provides rigid stabilisation.

Hook-and-loop fastenings are easy to apply and remove as needed.

Add to end of code for chosen colour: \*Black = /BK | \*Red = /RD | \*Royal Blue = /RB | \*Purple = /PU

Code (Left)	Code (Right)	Size
