

Procool Wrist/Thumb Restriction

This extended version of the thumb restriction splint provides additional wrist support for a combination of wrist and thumb conditions. A wide pull through wrist strap allows easier brace application, adjustment and fastening, offering extra compression and support at the wrist. Function and fit without bulk.

Provides wrist and thumb support for an array of injuries, conditions, pre-and post-operations such as:

- + Post scaphoid fracture
- + De Quervian's
- + Post surgical repair
- + Carpal Tunnel Syndrome
- + Skier's Thumb
- + Tendinitis

Made with tiny perforations in the Neoprene for comfortable wear and a terry cloth lining that feels good against the skin.

Delivers effective circumferential compression to improve circulation, enabling free movement of the fingers while keeping the thumb stabilised.

Wide pull through wrist strap allows for easy application, adjustment and fastening.
